When then the land is leased or sold, the conditions remain the same. It is not clear why it is insisted upon that the bit of land should not be leased at Re 1/- pa not sold at Rs 3/- per sq yd as already ordered in go dt 2-6-55 (flag O). 13) It is not known why the Bd is running to lease the land instead of allotting. The Bd may be requested to allot the bit of land at Rs 3/- per sq yds. As already ordered the corridor has no buildings should be built upon the land and also the Trust Board the Corporation have right to inspect the sewers.

14) The Law dept may be consulted whether conditions to the effect that the land should not be built upon & that the corporation or the T.B. reserves the right of inspection, maintenance & repairs of the sewer line running through the land can be enforced at all times even if the land is allotted sold to the party with these conditions or whether these conditions will have force in law only if the land is leased and not sold.

15) The Trust Board had recommended the grant of two odd bits of land to Sri Appaiah and Sri G.V.Subba Rao in Block 'A' of Kumara Park Extension. The site measuring 1 x 4 x 61 was proposed to be given to Sri K.K.Appaiah at a rate of Rs.3/- per square yard where as site measuring 1 x 6 x $\frac{62 + 61}{2}$ was proposed to be given to Sri G.V.Subba Rao on lease at a rate of Re.1/- per year. The sketch enclosed to the recommendation is flagged 'A'. The report of the Chairman was as follows:-

> "It is reported by the Engineer Officer that since the new drain in the area is diverted and taken up along the Railway line the bit of land which was so far reserved to function as a storm water drain may be disposed of to the two applicants." 16) After examining the question in the light of this report, orders were passed sanctioning these bits of land at Rs.3/- per square yard.

Vide flag 'O' of collection I.T.B. 5-54-150, 172 put up.

17) Now the Chairman reports that the bit allotted to Sri G.V.Subba Rao may be given to him on lease basis on the ground that the portion of the land is required by the Board for periodical inspection and maintenance of sewers. When it was reported by the Chairman that the new drain in the area is diverted and taken up along the railway line the bit of land so far reserved to function as a storm water drain may be disposed of to the two applicants.

18) It cannot be understood why the Engineer Officer has reported that the site is required for inspection purposes. The second report is contrary to the first. After examining the records and also the sketch put up & orders & therefore there is no reason to reverse orders already passed.

19) If approved, the Chairman will be informed of the above ~~contrary~~ contradictory opinions and he will be requested to inspect the spot personally and intimate whether any revision of orders is necessary or whether the orders passed by Government may be treated as conclusive.

With reference to your letter No.L.12768/ITB.5-54-185 dated 3-1-56 on the above subject, I write to state that the Engineer Officer of the Board has not at any time reported that the strip of land available between site Nos.4A and 5 of Block IXA of Kumarapark West Extension which is not required for the S.W. drain be disposed of to the adjacent site owners on outright sale basis but he has recommended the allotment of this land to adjacent site-owners only on lease basis. Since the sewer connections from site Nos.4A and 5 have to be taken along this ~~xxx~~ strip of land and to facilitate periodical inspections and maintenance of sewers the area has to be under the control of the Trust Board or the Corporation.
